## EDUCATION

**Western Oregon University, GPA: 3.89**

**Expected June 2021**

Western Oregon University, Monmouth, OR, USA

Relevant Coursework:

- Data Structures
- Information Management (SQL, Relational Algebra, Database Design)
- Operating Systems and Networks
- Agile Development
- Concurrent Systems
- System Architecture
- Technical Writing

## EXPERIENCE

**Senior Office Assistant, Confederated Tribes of Grand Ronde Oct 2015 - Present**

- Archiving and maintaining a collection of significant artifacts
- 3D scanning and printing artifacts using a combination of photogrammetry and IR scanning for display and education purposes
- Transcribing interviews with tribal elders
- Digitizing and archiving legacy media • Data entry and record keeping

## PROFICIENCIES AND CERTIFICATIONS

- C++ (3 years), C# (2 years), Python (2 years)
- Javascript, SQL, HTML, CSS
- .NET, Unity, Bootstrap
- Linux, Windows, Git

## PROJECTS

### **Random Movie Picker — Independent**

The concept was to create a dynamic web scraping console application in *Python* that automatically scrolls the pages of popular streaming services, grabs the titles and other relevant information from the *HTML* and stores it into .csv files sorted by genre. A movie selected at random is served to the user when the “gen” command is called. This was later developed with a GUI using C# and Windows Forms.
